

L4067 - Builders Opportunity or Business chance

Location: Placencia - Stann Creek

Land Area: 10890 | Frontage: Water-Front

This property sits directly on the lagoon at the entrance to Placencia residential areas in a place called Caribbean way. Caribbean way is an up and coming, more high end suburb of Placencia with huge double story houses being the norm. The idea was to put together some beautiful condos here for a passive income earner - forever. Things happened, lives changed and now this incomplete building is for sale. The pictures are artists renditions of what the condos would look like when finished. You could carry on with this concept or, convert what is there into your own vision or make it a small shopping centre and restaurant. There is enough people in the area to support this. Take note this building was build on the boundry line, so it will require a bit longer than usual time to transfer. Talk to Theresa Today!
